Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A non-technical boutique retail shop owner.	Transition my physical store inventory online and update storefront promotional banners easily.	I am blocked by high learning curves, expensive developer fees, and completely separate management panels.	Enterprise e-commerce solutions prioritize complex database configurations and heavy administrative overhead.	Digitally excluded, intimidated by database jargon, and anxious about losing my local customer base.
PS-2	A tech-conscious mobile shopper.	Browse product catalogs quickly on my phone and complete a clear checkout process.	I experience high cart abandonment due to sluggish web app mobile layouts and confusing invoices with hidden fees.	Legacy web templates bundle heavy framework scripts that increase loading latency and obscure clear itemized transaction values.	Legacy web templates bundle heavy framework scripts that increase loading latency and obscure clear itemized transaction values.
